

THE CHILDREN

Baby will want to get out for a ride on these beautiful Spring days. A new carriage is just the thing.

Bigger baby wants to go too. A stroller or sulky will keep him satisfied. We have a very good assortment.

City rates same as horse-driven ambulance; distance calls at reasonable terms. Telephone 87-W.

Always the First to Give the Public What it Wants

The Knight-Type Engine

is superior to

Any Poppet Valve Engine

in the following most important points:

1. That it grows better in performance with use as against deterioration in use of any other engine made.
2. That poppet-valve engines cannot be maintained during their life at less than four times the cost for Knight engines of same horsepower.
3. That because of the elements of design no poppet valve engine can under the different conditions of use maintain uniform power development even for a limited time at all comparable with the Knight motor.
4. That Knight motors never require adjustments of valve mechanism, grinding of valves or reboring of cylinders regardless of mileage run.
5. That the Knight motor in difficult situations of heavy power requirements will pull longer, stronger and smoother than any other type of internal combustion engine.
6. That the positive progressive actuation of the port mechanism of the Knight engine permits continued operation at high speeds without the strain, wear and consequent deterioration impossible to avoid with poppet-valve mechanism. The Willys-Knight Improves With Use
